

LLOYD MARTIN

ARCHITECTURAL DESIGNER

14 October 1988

Born: Zimbabwe

**Lived: Botswana/South Africa/France/
Scotland/England/Switzerland/
Netherlands**

/Nigeria/Vietnam

Studied: South Africa/London

I am driven by new experiences in my creative and social realms; feeding off the unknown with hunger for knowledge and adventure.

I have spent the last four years working in the Netherlands and London finding opportunities for the urban metabolism framework to contribute to the sustainable development of the city.

I am on a constant quest for new creative solutions to the complex issues of the built environment, and believe in an honest architecture that can critically engage with its environmental, political and social environment.

UCT/London School
of Architecture

English/French B1-B2
